
Director: [Alain Bertho](#) , université Paris 8

This theme invites participation from programs that share the view that the study of contemporary globalized cities interrogates the constitution of all knowledges as instituted disciplines, and their paradigms.

Research Topics:

- City, memory, images, creation
- Borders, peripheries, and interstices: Interactions between government and urban subjectivities
- Inhabitants' practices and public policies: International comparisons
- Space and time: Concepts under challenge in the contemporary city
- The Sustainable city: Memory, Becoming, Critique
